Boatyard Summer Newsletter

Greetings from Regent Point Boatyard!

The warm sailing season is now in full swing, and the Boatyard Staff arrives early to beat the heat. We hope you've been enjoying your boat so far this summer. The best sailing and cruising time is almost here...Autumn on the Chesapeake. If your boat needs any maintenance tasks or new gadgets, now is the time to have these projects completed. This ensures you have a trouble-free experience and the pleasure of that new must-have item. Please contact us early so we can get you scheduled.

Speaking of schedules, we will be offering the Free Winter Storage Special again this year. Place an order before November 15, 2011 for hauling and bottom painting and receive dry storage until April 15, 2012 at no charge! The prices for the upcoming season will be posted on the website, in early Fall. Please reserve your space early as space is limited.

This has been quite a year for us at Regent Point Boatyard. We have been extremely busy with a number of interesting projects. We would like to take this opportunity to thank all our customers who have supported the Boatyard. Some of the projects we have recently completed are:

- 1972 Bristol 26 Awlgrip Refinish
(see article on website w/photos <http://regentpointmarina.com/Ayesha.html>)
- Re-power of Sea Sprite 34 w/ 30 Hp Yanmar
- Rebuild of 1975 Perkins 4-108 engine
- 35 bottoms painted

Of course, none of these projects and many other yacht maintenance services would be possible without our talented staff! Jennifer, who has been with us a year, is a great addition. Her engine service expertise and attention to detail are second to none. She approaches every project-no matter how challenging-with enthusiasm and efficiency. She is also responsible for maintenance of the grounds around the marina and she applies the same skills to these tasks.

James has just completed his ABYC re-certification as a Master Technician. If you are not familiar with ABYC, please visit abycinc.org to learn about this organization and how they have improved recreational boating. James' other Boatyard duties include operating our heavy equipment and designing and maintaining our website, just to name a few.

We are a small but multi-talented team! We have a wide range of capabilities from simple bottom painting to electronic installations and rigging. Whatever your project ideas, we offer free estimates with guaranteed pricing followed by a commitment to stand behind our work.

We hope you have a wonderful time sailing during the remainder of the season.

Sincerely,

The Boatyard Staff
